

# The Comprehensive Solution for 24/7 Generator Monitoring

Your business can't afford to be out of power for a second. Even though today's standby power systems are extremely reliable, they are still subject to failure.

OmniMetrix has been a leader in the generator monitoring industry for over 16 years, with the most comprehensive systems in the industry. All OmniMetrix monitoring and control systems connect you instantly from anywhere to real-time and historical information on any number of sites, from a single generator to an entire fleet.

24/7 monitoring and instant alerts

Cellular, satellite, and ethernet installation options

Prevents 95% of "fail to start" situations

Alarm and status notification

Remote diagnostic and control capability
